

September 6, 2024 at 12:00 PM – 1:30 PM

Location: Fred Hutchinson Cancer Center

Description: This activity seeks to improve care for the patient suffering from side effects of immunotherapy treatment for cancer. The sessions will share important information about identifying and managing adverse side effects specific to this patient population, called immune-related adverse events (irAEs), including such varied conditions as pneumonitis, colitis, skin issues, rheumatologic toxicities, endocrinopathies, cardiac issues, and hepatitis. Each session will include an approximately 30-minute lecture, followed by approximately 15 minutes of cases and 15 minutes of discussion/Q & A. The format will be a live, online meeting (Zoom meeting) with easy availability to ask questions of the speaker(s). The series will include up to 6 sessions distributed throughout the year. The goal is to provide a shared learning forum among colleagues, discussing new developments and significant advances in managing adverse side effects in the post-immunotherapy patient. The intended audience is physicians and allied health professionals in clinical practice who are interested in learning about managing immune related adverse events, including oncologists/hematologists and oncology APPs and nurses, as well as other non-oncology-focused specialists, hospitalists, internists, and other providers.

Accreditation Statement:

Accreditation with Commendation: The University of Washington School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation:

The University of Washington School of Medicine designates this Live Activity for a maximum of 1.50 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Other Healthcare Professionals

Other healthcare professionals who participate in this CE activity may submit their statement of participation to their appropriate accrediting organizations or state boards for consideration of credit. The participant is responsible for determining whether this activity meets the requirements for acceptable continuing education.
