Diabetes Management in Primary Care through Telemedicine

May 15, 2020 10:00 am - 12:15 pm

ONLINE WEBINAR via ZOOM

2.25 AMA PRA Category 1 Credits™

Featuring

In this web-based course we will offer tips for outpatient practices to manage individuals with type 2 diabetes using telemedicine and available continuous glucose monitoring technology.

Objectives:

1. To effectively provide diabetes management virtually using telemedicine
2. To appropriately use diabetes technology to assess glycemic management without having to rely on A1C testing

Content topics

- Introduction to Telemedicine in Diabetes
- Using Technology for Diabetes and Setting up Your Office
- How to Interpret Data from Continuous Glucose Monitoring Devices in Primary Care
