CLINICAL CARDIOLOGY PEARLS FOR PRIMARY CARE

Monday & Tuesday

April 27-28, 2020

Husky Union Building (HUB) North Ballroom
University of Washington, Seattle, WA

Sponsored by UW School of Medicine
Department of Medicine, Division of Cardiology
Office of Continuing Medical Education

For primary care providers – including family medicine physicians, internists, nurse practitioners, physician assistants, nurses, and others with an interest in heart disease.

COURSE DESCRIPTION

This course is tailored for a primary care audience and is intended to provide practical, up-to-date information on commonly encountered cardiovascular diseases. World-class faculty from the University of Washington School of Medicine will teach participants using case-based lectures and an audience response system to encourage interactive dialogue. Recent guidelines for hypertension, cholesterol management, and diabetes will be reviewed. Everyday primary care topics including diagnosis and treatment of coronary artery disease, congestive heart failure, valvular heart disease and supraventricular arrhythmias, including atrial fibrillation, will be covered. Practical issues regarding use of new anticoagulants will be discussed. Appropriateness of cardiac testing will be discussed during lectures on the cardiovascular physical exam and the evaluation of chest pain with stress testing.

COURSE FEES	
All Learners	\$275.00
*Resident/Fellow	\$150.00
<i>*Resident/Fellow rate requires written confirmation of current status</i>	
<i>Walk-in registrations incur a \$25 administrative fee</i>	

ACCREDITATION

Accreditation with Commendation

The University of Washington School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation

The University of Washington School of Medicine designates this live activity for a maximum of 10 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

COURSE OBJECTIVES

Upon completion of this activity, attendees should be able to:

- Treat and manage high blood pressure based on updated clinical guidelines.
- Apply new cholesterol guidelines and novel cholesterol treatments to the management of patients with cardiac risk factors and atherosclerotic vascular disease.
- Order the appropriate stress test for patients based on current guidelines.
- Evaluate and manage patients with valvular heart disease
- Utilize novel diabetes drugs that have proven benefit in reducing cardiovascular events.
