COURSE DESCRIPTION

This hybrid conference will provide an overview of travel medicine and global health. The conference is targeted to non-specialist physicians and other health professionals with an interest in travel medicine and global health. Travel medicine topics will include immunizations, malaria prophylaxis, traveler’s diarrhea, and other topics salient to caring for those who travel to low-income nations. Global health topics will include medical professionals volunteering overseas, and working in complex humanitarian emergencies. Information will be presented via plenary lectures with an opportunity to ask questions.

ATTENDANCE POLICY

Course activities are exclusively reserved for course attendees.
