

2nd North American Workshop on Vascular Ultrasound

August 19-21, 2022

(In-Person at the Graduate Hotel)

This course is designed to provide basic training for the rheumatologist in performing vascular ultrasound for the diagnosis of large-vessel vasculitis. Hands-on training will be a significant component of this activity, partnered with expert faculty in the field, who will discuss and demonstrate how to identify the basic vascular pathological findings.

8th Annual Men's Health Update

August 26-27, 2022

(Online via Live Webinar)

Expert faculty has been assembled to provide this update, with presentations on topics such as prostate screening and treatment, testosterone deficiency and the controversy of testosterone replacement, male urinary dysfunction, kidney and bladder pathology, sexual dysfunction, male infertility and the changing influence of marijuana, and genital pain syndromes.

50th Annual Advances in Family Medicine & Primary Care, & 1-Day Infectious Disease Update

September 12-16, 2022

(Online via Live Webinar)

Each year our goal is to provide current information about practice skills and the diagnosis and management of a broad array of primary health care issues within family medicine, cardiology, endocrinology, psychiatry and behavioral science, neurology, sports medicine, women's health, pulmonology, nephrology, infectious disease, chronic pain, pediatrics, and gastroenterology.

13th Annual Comprehensive Hematology & Oncology Review

September 28 - October 2, 2022

(In-Person at the Motif Hotel)

This educational program will cover data supporting guidelines, recommendations and recent advances regarding therapeutic options for patients with solid tumors and malignant and nonmalignant hematologic disorders.

15th Annual John D. Loeser Pain Conference

November 10, 2022

(Online via Live Webinar)

The 15th Annual John D. Loeser Pain Conference will focus on the practical approaches to management of common chronic pain conditions such as long COVID, IBS, pelvic pain, and facial pain. The afternoon will focus on updates on our understanding of opioids, national and state opioid prescribing guidelines, and buprenorphine for OUD.

Current Concepts in Medication Therapy

December 12-13, 2022

(Online via Live Webinar)

Using a case-based format, expert speakers will highlight innovations in medication therapies, review new indications for old medications and discuss medication side effects or interactions.
